

# GRAPHIC ERA HILL UNIVERSITY, DEHRADUN

## Profiling Sheet

**Q.1: Write your career objective.**

My career objective is to pursue a career in Computer science by utilizing my skills in AI/ML and Web development to create innovative and efficient technology solutions.

**Q.2: Why do you want to be an engineer? Elaborate reasons.**

I want to become an engineer because it gives me the ability to transform my ideas and imagination into real, practical solutions. Engineering allows me to design and build technologies that can solve real-world problems efficiently and improve people's lives.

**Q.3: Write about projects or internship you have done/ are doing along with the learning.**

I am currently pursuing a 6-month internship at stack spear as a full stack web developer. During this internship, I am gaining practical experience in the MERN stack and learning how to develop, integrate and manage complete web applications.

**Q.4: What would you consider a significant achievement in your life and why?**

A significant achievement in my life is building strong programming and web development skills. It reflects my dedication, consistency, and passion for technology, and has laid a strong foundation for my future career.

**Q.5: Write about a failure of yours which you consider to share. What have you learned from it?**

I once reached the Top 10 teams in a hackathon but did not win because I could not explain my project effectively. This taught me that presentation and communication skills are just as important as technical knowledge.

**Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.**

My strengths are problem-solving and adaptability. During my ongoing full stack internship, I am learning and applying MERN stack concepts in real projects. I also demonstrated these strengths during a hackathon by developing a project within limited time.

**Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?**

one of my weaknesses is trying to finish tasks in one stretch while ignoring other important priorities. I am improving this by practising better time management and task prioritization.

**Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?**

The most difficult moment in my life was during my first year of B.Tech when I struggled to balance academics and skill development. My time management and discipline helped me overcome this situation and maintain focus on both areas.

**Q.9: Apart from academics, what else are you interested in?**

**Make a separate list in terms of extracurricular activities, sports and any other interests.**

- Actively involved in event management with a college community.
- Play table tennis.
- Watching PC build and Computer hardware-related videos.

-----  
-----  
-----  
Q.10: Give an example of an area, concept or thing that you are absolutely passionate about.

I am passionate about PC building. I enjoy learning about computer hardware, understanding component compatibility, and exploring ways to optimize system performance.

Q.11: Describe yourself as an individual in 5 lines.

I am a motivated B.Tech CSE student passionate about technology and innovation.

I am a quick learner who focuses on improving technical and problem-solving skills.

I believe in discipline, time management, and continuous self-development.

Q.12: What kinds of people do you enjoy working with?

I enjoy working with people who have similar or higher levels of knowledge than me, as it helps me learn and grow.

I also prefer working with those who share similar interests.

Q.13: What kinds of people you don't want to work with?

What would you do if they became your senior in your dream job?

I prefer not to work with people who take credit for work they have not done or create a false image of their contributions. If such a person becomes my senior, I would remain professional, respect their position.

**Q.14: What do you expect from your first job? Prioritize and write in order.**

- (i) - Opportunity to learn and gain practical industry experience.
- (ii) - Exposure to real-world projects to strengthen technical skills.
- (iii) - Guidance and mentorship from experienced professionals.
- (iv) - A professional environment that encourages growth and skill development.

**Q.15: In the past year, what have you been dissatisfied about in your performance?**

In the past year, I have been dissatisfied with my inconsistency in skill development. I am working on improving this by maintaining a more disciplined learning routine.

**Q.16: Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?**

I would rate myself 3.5 out of 5 in verbal communication. I am improving it by practicing presentations, discussions and focusing on clarity while speaking.

Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?

My role model is Sundar Pichai. I admire his leadership, calm decision-making, and humble nature, which I want to develop in my personality for long-term professional growth.

Q.18: Write a few lines about your friends. Do you think they help/ may help you in achieving your goals? If yes, how? If no, why do you accompany them?

My friends do not directly help me achieve my goals, but I stay with them because they are like brothers to me. We have different goals, but we all aim to become successful in life.

Q.19: Write 3 leadership qualities. How many do you possess? Write an instance where you have applied those qualities.

Three leadership qualities are decision-making, responsibility, and teamwork. I believe I possess responsibility and teamwork. I demonstrated these during a hackathon by coordinating with my team and ensuring tasks were completed on time.

Q.20: So finally, tell us something more about yourself or introduce yourself.

My name is Aditya Jadli. I am currently a full stack Web developer Intern at Stack Spear, gaining experience in MERN stack development. I achieved a Top 10 position in a hackathon, highlighting my technical and teamwork skills.

I am pursuing B.Tech in Computer Science Engineering and completed my 12th with 71%. I have worked on Web development projects and possess skills in MERN Stack, HTML, CSS, JavaScript, and have an interest in AI/ML. I have participated in hackathons, technical events and certification courses.

My hobbies include PC building, playing Table tennis, and participating in college event management.

My father is an ex-army personnel, and my mother is a beautiful homemaker.

Thank You.
